Dear Physician and GP,

The 13th Global Hands-on Musculoskeletal Ultrasound with MRI Correlation Congress for Physicians & GP's will be held on 2nd and 3rd October 2022 at Parkroyal Penang Beach Resort, Penang Island, Malaysia.

Here are the key features of the Congress:

1. All physicians will obtain a chance to be tutored by senior Musculoskeletal Radiologists who are experts at Musculoskeletal Ultrasound. Subsequently, each participant will be given 10-15 minutes initially to practise the technique shown by the radiologist on the model until all participants in the group have attempted and have been shown how to do the technique correctly. This is strictly monitored by an appointed group leader. After getting their hands-on practice, participants are free to move to any of the groups to observe and ask any of the faculty members should they need assistance.
2. Faculty to participant ratio during the workshop sessions are kept small to enable quality hands-on ultrasound training. There is plenty of time for hands-on practice as we have extra tables and models for each session. Please note that only limited places are available to enable quality training.
3. All groups are combined during lectures and are only split according to subspecialty and level of expertise during the practical sessions. It is advised that you register early if you are keen on joining the 2022 congress as places fill up fast.
4. There are also opportunities to be trained under an expert Rehabilitation Ultrasound specialist. This should be of interest to delegates who would like to learn how to identify injured muscles and subsequently administer PRP or prolotherapy treatment. Upper limb and lower limb nerve anatomy can also be shown. For Rehabilitation specialists, this is a good chance to gain a quick refresher on cross-sectional muscle identification for botulinum injections and nerve blocks, etc.
5. When applying for level of training using the online registration form, please note that Basic level means you have not attended any Basic MSK Ultrasound course and are not doing MSK USS weekly. Intermediate level means you have attended a Basic MSK USS course and are practising MSK USS weekly on patients. Advanced level means that you are highly experienced in MSK USS and would like more specific teaching of different joints. Please apply for the correct grouping to ensure effective training.
6. MSK Ultrasound and MRI videos are shown during the video sessions to complement the lectures.
7. Opportunities for Electronic paper presentations are available. Kindly submit your standard abstract (not more than 250 words) to the Secretariat for consideration by the Scientific Committee. Further details will be provided following your submission.
8. For ease of registration fee payment, credit card payment options are available for overseas delegates.
9. We have negotiated for special room rates with Parkroyal valid from 25th September- 6th October 2022. The hotel booking form can be sent to you via email. Please fill it and send directly to the hotel as per instructions on the booking form. Kindly note that no commissions are taken by the conference organizers for room bookings to keep the room rates low.
10. Hotel booking can be made using credit card and you will not be charged until check-in. Hotel booking can be cancelled according to terms and conditions and you will not be asked for your CVC number.
11. By attending the Global MSK USS with MRI congress, you will gain confidence in performing MSK Ultrasound. So don't think twice. Register for the Penang MSK MRI & Ultrasound Congress using the online registration form available at www.penangmskrad.com today.

The Global MSK Courses are usually google first page results out of 2 million searches under Best Musculoskeletal MRI course and on 31.3.2022 was No.1 google search with ad payment.

To all those with credit transfers we ask that you avail the opportunity to use the credit transfer at this upcoming course as we cannot guarantee that we can have future courses unless we have about 30 percent new registrations at the this upcoming course.
